

Religious Posters

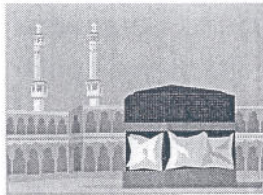

This is your opportunity to design your own poster or Powerpoint. You are going to *advertise* the religion assigned to you. This means that you may only use the information you find that is positive. You will begin designing after you research your religion.

Your posters need to include:

- Three pictures that typify your religion- (You may include as many as you would think would be appropriate for a poster.)
- Major leaders- Do research on this. Don't assume you know them.
- The god or gods
- Religious book or books (if they have any)
- Basic beliefs of the religion
- Also include any items that you think may draw people to your religion that may not fit into the above categories.

After your research from the library has been approved by the instructor, you may begin working on your project. You may bring in materials for your poster. This is a group project. You will be graded together.

Remember you are advertising. That means that you do not want to even hint that your religion may have negatives.

Library days: September 24th, 2014 and September 25th, 2014

In class: September 26th, 2014

Due: Monday, September 29th, 2014

Extra credit: poster board due Thursday
